Judged By Steve Kingswell ARPS, AFIAP

Image	Score	Comment
Entry Class		
Bearded Iris	10	A richly coloured abstract, sharp, with a real sense of vibrance & drama - excellent
Helianthus	9.5	Beautifully muted (not over saturated) colours. Out of focus background makes the bloom pop. Nicely sharp in the middle areas - super shot
Christus	9.5	Great sense of scale, beautifully lit, really well executed creating a good sense of atmosphere
Pillar of the Community	8.5	Well taken black & white with a good range of tones. I like the contrast between the pillar's calm space & soft texture & the detail on the face.
Musician	8.5	Super exposure management, and lovely colour tones. Textures come through beautifully, especially the wooden instrument - taken with great sensitivity, well done
Fly Agaric	8.5	Very much a record, but a good one. Lovely colour saturation and enough background / environment for context - well done
Joe Robin	8	Good capture, with super use of depth of field. The head is blown out so try to meter on the brightest part of the image.
Corona Exercise	8	Well timed shot, & topical. Freezing the image makes it somewhat static, like he's suspended in the air, but well executed
Spring Blooms	7.5	Lovely composition, great exposure, good saturation - but slightly soft, focus could be better
Nice Hat	7.5	Lovely colouration, but it's a real challenge to get the focus right. A little soft. Super out of focus background & nicely lit.
Mr Al Packer	7	Lovely subject, well framed. Just a little soft, and blown out on left side of nose. Try to get the eyes critically sharp - fun image
