

**LPC PDI Competition No 5 18 May 2020 Judged by Paul Graber LRPS
Intermediate Class**

An evening stroll	8.5. An interesting shot, enjoying the silhouette but the clouds are a bit bright
Entrance to Tahoe Caves	10. Really effective, so much to be seen in the caves
Garden work	8. Enjoying the light through the trees, but the image does need some tidying up
Blue Tit	9.5. The bird is fantastic, the background needs darkening
Out to Play	7.5. A near miss for me - there's a good picture here, but the geometry between the elements not quite working
Iris in bud	8 Pleasing colours but spoilt by blown highlights in the blue near the top
IRIS	8. The iris is impressive but it looks artificially cut out against a rather dull background
Looking out	7. A little dull in the sky and hills, but too much contrast in the foreground
Sunbathing in Hawaii	7.5 I know colours in Hawaii are bright, but this feels overcooked - and the seal doesn't stand out enough
Pesky insects	8.5 Leaf and insects fine, but background too bright
Shockwave	10 Clearly from the school of Talibart - but a very good example!
Teide National Park	9 A very attractive landscape, well captured, just tidy up the edges
